

WHAT IS TEDDY BEAR CORNER?

Teddy Bear Corner is a nursery/Preschool located at 34 Spring Street in Adams. Classes are held five days a week from 9:00to 11:30am. We follow the South Jefferson School calendar for vacations and snow days.

Teddy Bear Corner is owned and operated by Cindy Reardon, a Registered Nurse with over 38 years of experience in Pediatrics. She also has her elementary education degree. TBC has been providing education to the area youth for over twenty years. We currently employ a staff of 5. Each teacher and aid is kind, gently and very understanding of early childhood development,

Our first goal at TBC is to build each child's self-esteem and self-confidence. We accomplish this by using praise and hugs. We want each child to feel important and loved.

At TBC we choose a theme for each week. The program is built around this theme. We have a different color, shape, letter and number each week.

Our snacks reflect our color or theme. The children view a movie each week. They also make art projects, sing songs, play games, and have story time each class session. Weekly Readers are shared each week. Book Orders are available each month. Parents receive a Newsletter each week detailing the week's plans and upcoming events.

TEDDY BEAR CORNER-TEACHING OUR CHILDREN WITH LOVE AND UNDERSTANDING

Our Monday-Wednesday-Friday classes are usually for the four and five year olds. These students will be attending Kindergarten the next year. We work with this class on pre-kindergarten readiness skills: cutting, following directions, the Alphabet, Numbers, Shapes, Colors, Science classes, Social Studies, Fine Motor skills, letter sounds, Cutting, Visual perception, and having fun.

Our Tuesday-Thursday classes are for the three year old students who will be attending Kindergarten in two years. We work on socialization, sharing, listening, following directions, Gross Motor Skills, making friends, beginning learning skills, Numbers, Shapes, and Colors and having fun.

We hope each child discovers that learning can be fun. When we make pancakes, each child stirs the batter, pours it on the grill, flips the pancakes, eats them and helps to clean up. They are learning how to work together as a group, follow directions, take turns, develop patience, and strengthen their self-control.

Please feel free to schedule a visit to our classrooms by calling 232-2230.
Thank you. Cindy Reardon
